MINDFULNESS

Teachers have received training on Mindfulness which is about taking time out of your busy day to relax. This can help to support both adults and children and can benefit sleep, anxiety and family relationships.

We are using this approach throughout school to improve children's listening and concentration skills, self confidence and ability to regulate their feelings and emotions.

After the rush of Christmas we would like to take this opportunity to share with you our mindfulness resources where you will find useful apps:-
